

Bobcat E34

£POA

The new Bobcat® E34 model is a new generation of Bobcat 3.4 tonne conventional tail swing model offering higher stability coupled with excellent performance and further enhanced controllability. It features a new roomy premium cab with optional powerful air conditioning to ensure an ideal operator environment in all weather conditions. When transportability on a trailer and zero house swing are not needed, this machine offers a great mix of performance, stability and operator comfort.
